CUMBERLAND.—The Wilmington tar says Waddell and Ransom had large audiences to hear them in Fayetteville this week. The people in Cumberland are thoroughly aroused, and there is every prospect of a considerable majority for Messrs. Worth and Blue.

YIELDING TO THE PRESSURE.-The Rads at the political headquarters of the State are beginning to whistle more and more each day to keep their courage up. They see the handwriting on the wall and are yielding to the pressure of that inevitable deest which awaits them.

RALEIGH TOWNSHIP-CONSERVA-IVE NOMINATIONS.—The following ticket has been placed in nomination by the Raleigh Township Executive Committee of the Democratic-Conservative Party:

Justices of the Peace .- D. L. Royster, Henry Porter, W. C. Stronach, W. R. Crawford, J. H. Separks, W, H. Harrison, L. M. Yearby. Constable .- T. B. Macon.

Sanders & Co., are now selling large quantities for turnips and that they are daily receiving orders for it to be used upon the next wheat and clover crops. Notwithstanding the strong competition in our market for the past few years in the fertilizer trade. the success and popularity of the Star are unprecedent, and the sales quite doubled those of any other during

the past season. THE REMOVAL OF STUMPS .- A single fact given by General Colquitt, of Georgia, in his speech Saturday last, will be of practical benefit to the farmers of any section. He said that, to remove stumps from a field, all that is necessary is to have one or more sheet-iron chimneys, some four or five feet high. Set fire to the stump and place the chimney over it, so as to give the requisite draft at the Pepper's saloon to-day. Families bottom. It will draw like a stove. The stump will soon be consumed. With several such chimneys, of different sizes, the removal of stumps may be accomplished at merely nominal labor and expense.

> THE PIEDMONT SECTION,-The news from this section of the State is of the most cheering characters our friends have the strongest hopes of making gains in several counties. We take the following extracts from a priyate letter dated Winston the 28th inst:

"We are still la the State and are still making it lively for the Rads, with the fairest prospect in the world to elect our candidate in Forsythe. Col. Joseph Masten. Wheeler took the position at three or four precincts in the county to abolish poll tax, but now that he finds that the Republicans are opposed to the measure he is denying that he ever took the position. A large number of affidavits however, from some of the most respectable men in the county, have been obtained and pub-

lished convicting him of falsehood. "Judge Russell passed through here on Sunday on his return from Yadkin county. He says W. B. Glenn is one of the most impudent fellows he ever met on the stump. They say that Glenn completely demolished him over there and made him retire from the county before he had filled all of his appointments.

" What John Page, of Chowan, said about "giving the white men h-l" should the Radicals get control of the Convention is disgusting the honest white men of this section, as it shows what would really be done if the white people of the State let this elec-

tion go by default.
"We think, with present prospects,
we can rely on defeating Wheeler
for once since the war."

McCabe, Esq., an ex Federal fficial, member of the State Senate can be obtained of the NEWS Job Office at the following prices, the in 1872 '73, and at present Radical candidate for Convention from Edgecombe, took offense at some strictures in the Southerner of this place of to-day, and attacked Walter P. > THE WORK OF OUR STREET COM-MISSIONERS. - Commissioner Audrews, under the supervision of the Street Committee from the Board of Aldermen, Messrs, J. C. R. Little, R. H. Jones and Jack Hamill and Stewart Ellison and Jones, col., has been busily at work since his induction into office on the 5th of May last. Within the three months that the thoroughfares of this city have been under the management of this Street Committee much decided improvement has been effected, and we are glad to see it is of that character which guarantees a permanency. The city has effected an arrangement by which as much rock as may be needed for any purpose can be obtained from the State quarry, just east of the city, and several carts are kept busy hauling this rock, which in many cases is broken up and strewn upon our streets with a view of making a permanent rock bed. Cabarrus street. from the Central Depot to Fayetteville street, is being thus bedded, as this is one of the principal thoroughfares and in the winter time often becomes quite bad, and it is intended to continue this work up Fayetteville from Cabarrus and the streets in and around the Cotton Exchange, and wherever else it may be immediately needed. This will be found of great service during the winter season, and we hope the day is not distant when every inch of the 68 miles of streets in Raleigh will be thus partially ma-

> At numberless intersections of streets and other places stone gutters have been substituted for wooden ones, and a ride through the city developed but few places where work

But the principal work, and what is at present costing the city heavily. is the fixing of the ugly place at the intersection of Lenoir and Blount streets, which had been commenced by Commissioner Backalan, and which was absolutely necessary to make those streets at all passable; the culverting of the branch at the intersections of West and Johnston streets and the filling up of these streets at that place, which, when completed will be of great advantage to that portion of the city; the completion of the heavy culvert at the intersection of Martin and Harrington streets, and the building of culverts and dams on North street immediately at the entrance to Oakwood Cemetery This latter work is greatly needed. and rock has been placed on the ground ready for the workmen when the work on the corner of Blount and Lenoir streets shall have been completed. It is the intention of the Committee in every case to use rock instead of wood, which will make their work permanent, and they are determined that during their term of office the streets of Raleigh shall be placed in much better condition and at much less cost than under Radical rule, and we can safely say that under the present management this substantial work will be done (and well done) at a great saving to the taxpayers of Raleigh over what it would

have cost under the old rule. Commissioner Andrews understands his business, but to Aldermen Little, R. F. Jones and Hamill will our people be greatly indebted for the close personal attention they are pay-

LET OUR FRIEN DS WORK CHEER-FULLY .- The friends of Convention throughout the State have every cause to bend manfully to the work of next week. There is everything to cheer them. We have information from every section of the State, and with but one or two exceptions the Demoerats will hold their own and unite in the honest effort to overthrow that abominable constitution which was forced upon us at the point of the bayonet in 1868.

Our friends are everywhere at work. Particularly is this so in Wake county; not only are our candidates doing their duty nobly and manfully, but they have the hearty co operation of the County Executive Committee, and hundreds of our young men have thrown their coats off and gone into the fight to

A NORTH CAROLINIAN COMMITS SUICIDE.-A Petersburg (Va) dispatch, under date of the 28th, thus records the unfortunate death of a young man from this State who was at the time living in that city: B. W. Avent, a promising young

man, committed suicide this morn-ing while in delirium from fever, by jumping into the Appomatox river. He left his room without clothing, wrapping a sheet over his body, and ran like mad to the wharf, unmolested by the passers by, although it was broad daylight. The body was recovered and sent to his relatives in Battleboro, N. C.

SENATOR RANSOM .- The Wilmington Star of yesterday has this to say of this gentleman:

Senator Ransom arrived in the city last evening at 11 o'clock from Lumberton, where he spoke yesterday. This distinguished and beloved citizen was met at the Purcell House by some of his personal and political friends. His arrival was noted by the shooting of rockets.

Gen. Ransom is looking well, notwithstanding the arduous labors of daily campaigning he has undertaken. He will address the people of Brunswick to-day at Smithville, going down the river to Smithville this morning with a number of friends and admirers in the snug little steamer William Nyce. He will return to the city this evening, and will go hence to Rocky Mount to-morrow, where he will speak on Saturday From there, we understand, he will go to Washington, Beaufort county.

Hydropkobia in Fruit,-Poisonous Peaches in India-A Wonderful

Cccurrence at Lucknow. Two native gardeners and a little y having been suddenly seized with alarming spasms, accompanied by foaming at the mouth, after eatquantity peaches, the Englishman to whom the peach orchard belonged forthwith proceeded to analyze the fruit. To his horror, the juice was found to contain a considerable proportion of poisonous virus, a discovery which naturally led to a close examination of the tree from which he fruit had been gathered. After inspecting the leaves, the branches, even the bark, with no scientific re sults, one of the examining party suggested that the roots should be uncovered. This being done, the origin of the poison at once came to Being anxious to enrich the soil of the orchard, the gardeners had buried dead dogs under many of the trees including the one on which the deadly peaches had grown. Under its roots lay the careass; of a defunct pariah, proved by appearances to have died of hydrophobia. After this discovery there could be no doubt about source from which the fruit derived its poisonous qualities. The pdrophobia had first imregnated the soil, next the sap of the tree, and subsequently transmit-ted itself to the fruit. Yet the poison appears to have lost some of it er in transit, since it is related that the three patients "were successfully treated and all recovered."-Luck now Correspondent London News.

The London gossips are telling this story, apropos of Queen Victoria's continued seclusion: At the Princess of Wales' garden party, at which she was present the other day, the Queen accosted a distinguished officer and conversed affably with him for some minutes. At last the gallant General remarked: "I am really very sorry, madam for being I am sure I have seen your face, and remember it perfectly well but I cannot remember your name.

A drop of perspiration has caused a terrible explosion in the Pyrotechnic School at Toulon. A naval lieutenant was filling bottles with dynamite, gun cotton and phosphate of calcium, and the story is that a drop of perspiration from his forehead falling under certain condition, on matter not explosive without contract with water, produced the catastrophe. At any rate, three persons were killed on the spot.

Young Grimwood, who was lost with Donaldson, the balloonist, was something of a poet, it seems. He had written several poems, one of which he sent to Longfelow, receiving in return a kindly criticism of his effort and no little encouragement to further develope his talent for verse

Come to your Country's call! Save H. vour State! [From Sloux City (Iowa) Journal July 16. Struck dead in a Twinkling .- De-

plorable Effects of a Flash of Lightning from a Clear Sky. While the thunder-storm of yesterday afternoon was ragingat a distance of apparently a couple of miles from this place, a singular freek of nature took place in the striking by light-ning of the depot, and the striking and killing subsequently of J. H. Boyer, the postmaster and black smith of this place. At about o'clock in the afternoon, at which time not a cloud obscured the sky overhead or stood between the sur and the town, a terrible flash of lightning, followed by a deafening peal of thunder, struck the wires of the telegraph office and set it on fire. The damage done to the telegraphic apparatus was most complete. wires being torn to pieces and the different instruments being almost without exception distorted and broken and completely wrecked. Immediately after the stroke John H. Boyer, who was in his shop a the time, ran out in the street toward the depot, where some boys had been playing. He approached them rapidly and said, "Wny, boys, I thought some of you had been struck. I was frightened on account He evidently had it in his mind that the terrible shock might have frightened his family, as he started towards his home immediate When within about fifty yards of the house, from the front window of which his wife was anxiously watching his approach, another vivid flash of lightning dazzled the eyes of all, and ere the thunder had ceased rolling, the naked body of the un fortunate man was seen to be lying prope upon the ground. A numbe of people, among them his wife, rush ed to the spot, and so horrible was the situation that it was not until h

the fluid had run down the side of the face, as was shown by a clearly cut track, to the shoulder, and thence to the heart, where it apparently spread all over the whole be The terrible power of the fluid was shown by the presence in the ground on the spot where the unfortunate man's body had been picked up, of a hole eight feet deep by actual measurement. The clothing of the de ceased was found to have been shredded, and when first discovered was on fire, while the silver watch he carried had been driven into the ground, and when lifted up it was found that the works had been fused into a lump of shapeless metal. The scene at the house of the deceased who leaves a wife and three children to mourn his loss, was painful beyond power of words to describe; and those who had been led to the spot through curiosity could not remain. The affair has created the profoundest sensation in the town, where the deceas-ed was both loved and respected by all who knew him in either public or private life.

On Wednesday last, while fifteen men were engaged in running a thrashing machine, near Alpharetta Ga., a heavy cloud and rain came up, and a bolt of lightning struck in the midst of the crowd killing three men outright, and injuring some extent the entire party. Two of the men were brothers, and were standing on each side of their father when killed. the father miraculously escaping unhurt.

THE KEY-NOTE OF FEALTH.—The health and vigor of the several organs of the body depend upon the simple condition that the functions which pertain to each shall be regularly actively performed. If vitality is sluggish or deficient, this condition is not properly foldlied, and as a consequence disease is soon imagurated. Prevent it by a timely use of Hostetter's Stomach Bitters, which rouse the vital energies when dormant and endow the feeble frame with needful stamina. At the same time that the Bitters intuse new strength into the system, they correct those functional irregularities and local weaknesses which sap the vital power. Dyspepsia, bladder and kidney complaints, goul, rheumatism, fever and ague, billousness, constipation and nervous diseases are invariably overcome by the operation of this s andard alterative tonic.

REMEMBER all the amendments proposed by the State Constitution will be submitted to the people for ratification or rejection. If the alterations proposed to the Constitution are not acceptable, they will be

Make Wake county sure, the eyes of the whole State are upon it. Its ticket is a splendid one. Its candidates are doing splendid service. Let the Democrats stand up to them.

THE Republican Executive Committee daily issues from two to four thousand copies of the Constitution. They are flooding the State. Democrats, look out and work.

Which shall the people followthe native born whites of North Carolina who believe that a reform of the organic law of the State essential to the welfare and prosperity of the people, or the office-holder, the carpet-bagger and the negro who tell you that the Constitution of 1868 is all-sufficient.

KEFP John Page and his assertion before your eyes. John Page "spoke out in meeting," and meant exactly what he said, and believed then that he would get what he wanted.

Do the whites want to give Page the pleasure of "breaking down all distinction between white and black in everything?"

WITHOUT exception all the intelligent, well informed and patriotic whites of North Carolina call for a new Constitution. Without exception all the government office-holders, all the negroes, and most of the State officers oppose the call. But Judge Rodman and Judge Cantwell, and Lehman and Candler and some few other leading Republicans agree with the Democrats.

THE white people were disfranchised in 1868, to the extent of excluding 20,000 of them from the polls. And 80,060 negroes were enfranchised to give them a voice in what they knew nothing about. And the votes were sent to a military commander in Charleston; and he pronounced it good, and so you got your present Constitution.

THE Democratic ticket every where is a capital one, and not an office-holder on it. The Republican ticket has a dozen negroes, three or four judges, several ex-judges, a United States district attorney, and Revenue officers without number and ex-judges, postmasters and office-holders of all grades stumping

the State. Do the people mark the difference? Do they want a constitution made in the interests of officeholders and negroes? Do they want the constitution of 1868 kept in perAND STILL BRIGHTER.

The accounts received yesterday confirm all the bright prospects annonnced in our previous issues.

From East and West it is all the ame, and we can confidently claim a majority in the Convention such as will show that a reform in the Constitution is the carnest wish of all the good people of the State.

Let the work go on without flag-

AN IMPUDENT FELLOW.

Judge Russell complains that W. B. Glenn is an impudent fellow, and actually had the impudence "to come between the wind and his nobility." The ex-judge was so disgusted that he actually quit his appointments in the West and went back to Brunswick where he would be sure of more deference.

Imprudent Glenn! he does not know the sacred dust of which radical judges are made, or, with backwoods rudeness, he thinks "a man is (but) a man for a'that." Deal more gently with ex-radical judges who condescend to instruct the people, or you will mortify and disgust them, and they will withdraw into retirement as impenetrable as that of the Grand Lama.

REMEMBER that the election law requires "That when a voter is challenged at the polls upon demand of any citizen of the State it shall be the duty of the Inspectors of the Election to require said voter before being allowed to vote to prove by the oath of some other person known to the judges the fact of his residence for thirty days previous thereto in the county in which he proposes to vote."

Remember also that the election law says: "No elector shall be entitled to register or vote in any other precinct or township than the one in which he is an actual or bona fide resident on the day of election, and no certificates of registration shall be given."

Suppose the Radical party control the Convention, what will it do? It will certainly hold the Constitution to the extent of confirming and muking permanent all that now makes it so objectionable; it will take away all power of alteration or amendment and make it forever binding upon the people of North

Has the effect of this been co 1dered? The change made by the radicals will be, in the first place to cement their own power; in the second place, to advance the negro and increase his privileges and influence. But the white population in this State is increasing, as compared with that of the negro, in the ratio of five to three. But this vast prospective disparity, this immense superiority in numbers of the white over the black, is forever subordinated to the control of that class, inferior in numbers as it is inferior in every thing else. The consequences will realize in the end the fable of Mezentius-the linking of the living body to an offensive corpse. Separation, relief, can only be effected by

Let the people take care now that their Constitution be revised for the good of all classes, not tampered with for the benefit of special interests and a particular race. Let them look forward. The white population will be double what it is now and when the blacks shall not have increased at all; and beware lest the fundamental law is permanently fixed for the peculiar benefit of these latter.

RADICAL PRETENSIONS.

The Radical leaders have put out during this campaign some of the most unblushing claims to popular favor that were ever made by reckless partizans. We have shown how false their claim was to the authorship of the Homestead law, yet it has been the strongest bolt in their quiver. It has given them a stronger hold upon popular gratitude than anything else, and in many minds has effaced all impression of all the fraud, oppression and extravagance of the party. It is, only another illustration of the power of a lie well stuck to.

Again, Judge Buxton claims for the Radical party the introduction of that section in the Bill of Rights which forbids the suspension of the writ of habeas corpus.

Judge Buxton is a lawyer, and possibly a good one, since the Radicals put him on the bench. We do not know which born of the dilemna the Judge prefers to be impaled on -whether to be considered a poor lawyer, or a designing bad man.

Either the one or the other he is. The old Bill of Rights, ratified on the 17th of December, 1776, and which was in existence up to the petual force, only a little more so? adoption of the Constitution of quality. The crop of the year now rick has been committed to jail."

Sec. 13. That every freeman rcstrained of his liberty is entitled to a remedy to enquire into the lawfultulness thereof, and to remove the same is unlawful, and that such remedy ought not to be denied or

Is not this language quite as strong and explicit as the clause in the Constitution of 1868? Sec. 21.

The privileges of the writ of habeas

rpus shall not be suspended. To alJudge, and to a man seeking relief from restraint upon his liberty, or inquiry into the causes of such restraint, the section of the Bill of Right: of '76 is perfectly intelligible. It means the indefeasible right to the remedy of the writ of habeas

It is a forcible commentary upon the sincerity of the Radical party and their regard for the liberties of the people, that the only instance of the suspension of this great writ in North Carolina occurred under Radical rule, exercised by a Governor who was summarily punished by the aroused people of the State, and who is now canonized by the Radical party as the greater martyr for the truth of their principles.

DUNCAN, SHERMAN & CO.

York-the Immediate Cause-the Firm's Cotton Speculations.

As the whole country and almost every class of trade is to a greater or ess extent affected by such failures as that of the baking house of Duncan, Sherman & Co., of New York, we append the following extracts from the New York Sun of Wednes-THE FAILURE.

At 11 o'clock yesterday morning the great banking house of Dunean, Sherman & Co., corner of Nassau and Pine streets, hauled down the iron shutters that cover the front of their banking house, and closed business. In a very short time the rumor spread brough the city that the great banking house had suspended. An incipient panic seized the junior partners and chief clerks in charge of the second-rate banking houses of the city. who, by reason of the summer vacation and the absence of principals, were left in charge of those establishments; gold ran up from 123 to 163 onfusion reigned in the stock market: the cotton market became panicky; produce was all affoat; me brokers rushed around frantically calling in their time loans; and all the symptoms of a general and widespread financial crash were apparent. Half an hour later and the street recovered its equilibrium; money mstters moved along smoothly, gold-settled back to its natural level, cotton became easy at its legitimate quotation, and a better feeling prevailed

throughout the street. One of the attorneys of the firm informed a Sun reporter that their lia-bilities would amount to between \$5 000,000. and \$6,000,000. He could give no estimate of the amount of their assets, and would not even approximate to it. He said the heaviest losses would be in this country. and would fall largest upon banks and bankers, many of them in the country, who were large holders of the paper of the firm. American tourists and travellers in Europe would experience the most annoyance from the failure, as a large proportion of these carried the letters of credit of the firm and relied upon

them for their funds. IMMEDIATE CAUSE OF SUSPENSION. It was affirmed that the immediate cause of the suspension was the firm's losses in cotton transactions, though it was admitted that this was not even the principal cause of their embarrassments. Losses on railroad securities were not as so directly affeeting the firm's solveney; and even the nature of these losses was withheld. It was not even claimed that the house would eyer resume, and no estimate could be gained of the probably percentage that might be

realized on claims against them. Among the heavy losers by the failure is the Mexican Consul at this port. He had occasion yesterday morning to make a small payment, which he did by check on Duncan, Sherman & Co. In a short time the check was returned to him by the payee with the announcement that the firm had failed. "My God," exclaimed the Consul, "I am a ruined man! I had all my fortune in that bank." He subsequently refused to give any information to the reporters, though it was understood hat his private account amounted to between \$60,000 and \$70,000, in addition to which the consulate funds were deposited with the firm.

THE FIRM'S COTTON SPECULATIONS AND THE CAUSE OF THEIR HEAVY

LOSSES. It has been an open secret that Duncan, Sherman & Co. bave been leading operators in the cotton market here and in the South, and in Liverpool. They have been repreented on the floor of the New York Cotton Exchange by Mr. John B. Kitching, a gentleman somewhat well known as the builder of the Eriesson hot-air ship. Messrs. Dun can, Sherman & Co. have been regarded in the Cotton Exchange as the leaders of what is known as the bull party, although it is probable that the extent of their interest in cotton has been more or less exaggerated by the imagination or interest of other operators. This movement is undertood to have begun early last autum, not far from the 1st of September, and was encouraged, if not directly based upon, the report of the Agricultural Bureau at Washington of the condition of the cotton crop at the end of August. That report indicated a great detoriation during the month of August, as the effect severe drought which prevailed in a large portion of the cotton growing region during that month. Estimates of the total crop, based upon this report, ranged from 3,000,000 to 3,250,-00 bales; but the damage from the drought proved to be greatly exaggerated, and the crop amounted to about 3,850,000 bales. This is a failing off of about 300,000 bales from the crop of the previous year, but the deficit in quantity has been nearly or quite made good by an improvement in the

about closing is one of the highest in grade that has ever been grown; and, therefore, in cloth-producing capacity

falls little, if any, short of many vielding a much larger number of ales. The better quality is partly the effect of the drought, and the same influence caused the crop to mature early, while a frost brought the picking season to an early termi The planters were in great need of

ready money, and hurried after their

product to market. Down to the 20th of December last, consequently, the receipts were largely in excess of the previous year, and, indeed, of any year. The discredit thus hrown upon the short crop views caused a ma ferial Jeeline in prices, and in the latter part of December current quotations were 2 cents a pound below those of the September previous. Then receipts began to fall off, and y the middle of March prices advanced 3 cents a pound. Then the dull of trade, with the prospects of a good planting season, caused a downward movement, which continued, with frequent fluctuations, until yesterday the lowest point of the season was touched, with middling uplands quoted at 14ge., against 16ge. last September.

It is probable that the bull party uld have weathered the storm but for the action of the operatives in the otton mills of Lancashire and Massachusetts, in refusing to accept the reduced rates of wages made necessary by the very low prices of cotton goods, preferring, rather, to accept a ookout. The action of the Laneashire peratives closed the outlet through which Liverpool expected to obtain relief from the enmorous stock which she is now carrying, with the pros-pect of another large crop right upon

The full effect of the failure of Duncan, Sherman & Co, upon the cotton market cannot be developed until some little time has passed. It cannot be known positively how much cotton they are carrying, or whether arrangements cannot be made to prevent any considerable portion being sacrificed. Cotton is low and money cheap, so that any appearance of steadiness, in view of this reverse, would probably stimulate an active

speculation for a rise. On the Cotton Exchange the failure of the banking firm was attended by an immediate feeling of panic. Their "long" contracts and affoat gave the market great uncertainty. which resulted in the decline of the stable from 1@ le. The market 'rallied when it became known that the firm had not at the most exaggerated estimate more than 20,000 bales present and futures, and by the est mate of many had not 9,000 with which to influence this market. This gave a firmer tone to the market, which, however, did not rally wholly from the first panie, but closed at lower rates than the open-

The fact is " said a cotton dealer. only one firm has lost by the late leeline of cotton and they are Duncan Sherman & Co. They have been represented in the Exchange by a iton bull, have been "long" market steadily, and but for this fact the exchange would not have been afcted by the failure at all. Stiff as ong as it is uncertain how much they are short upon their cotton contracts, and especially how much they may throw upon the market to settle their contracts, so long the market will be uncertain. We shall probably know these facts to morrow. I do not believe that in the worst event they can produce a sustained panic in the Exchange."

> From the Brooklyn Argus. Tilton Begins Life Agam,

On the very day that Judge Neilson delivered his charge to the jury Theodore Tilton resumed those labors necessary to the maintenance of himself and so much of his family as the late terrible ordeal has left him. In proof of the application, industry, and remarkable tertility of the man, it is only necessary to state that the preparation of a new book, which he began on the day abovementioned, has so far progressed that he expects to be able to put it to press by the middle of next month. The title he has selected for it is, "A Legend," and it will make an octavo volume of between two handred and fifty and three hundred pages. The resumption of literary abor seems to have had a happy effect in partly relieving his mind from the heavy sense of his domestle misfortunes, and in enabling him to disperse some of those shadows that have so long darkened his life. He rises early, works hard until late in the afternoon, dines about 5 o'clock, and then refreshes himself by a five or six mile walk. The only discomfort of these pedestrian tours is the attention which his familiar and striking figure always attracts. What Swift described as one of the pleasures of fame-to be pointed out in the crowd and overh artheren ark That is he; there he goes"-is evidently not a pleasure to him. His prospects for the future are most flattering. Besides such work with his pen as he has mapped out for himself; in addition to the book now approaching completion, he is urgently solicited to deliver lectures in various parts of the country, and finds the demand utterly beyond his power to meet it.

THE EFFECT OF DUNCAN, SHER-MAN & Go.'s FAILURE.-The Baltimore Sun thus editorially reviews the recent heavy failure of this house :

"We do not understand that this event indicates any new disease in our financial condition. It follows close upon the recent great failures in London, and was, apparently, precipitated by them; but in reality it is rather to be regarded as a sequel to the panic of 1873. That memorable tempest left Duncan, Sherman & Co. with a large proportion of wrecked investments on their hands; and these unavailable assets have not improved since. The immediate cause of the failure, however, is doubtless to be found in heavy operations in the purchase of cotton which have proved the reverse of profitable. Unler ordinary circumstances losses, however severe, would not drawdown such a house; but the comparative weakness remaining after 1873 and the financial stress in London have together compelled them to close their doors.

The Winston Sentinel gives the following account of the killing of an' innocent and unoffending man by a Radical Conventon candidate, (and this is the kind of men Radicalism.

would foist upon us);
"Last week Sheriff Jones, the Radical Candidate for Convention in Yadkin County, was on his way from the hustings in his liquor wagon in company with several of his friends who were very much intoxicated; they met a man by the name to Jenning above Boonville on the Jonesville road who reproved them for their disorderly conduct, when Hendrick drew his pistol and shot Jennings, killing him outright. CAREFUL SELECTION OF DELEGATES. CAREFUL SELECTION OF DELEGATES.
As to the specific changes that ought to be made, these are to be considered by the citizens of the various counties, who should be careful to select as delegates toose who will properly reflect their wishes. Men of enlarged and practical statesmanship, spothess integrity, representatives of all classes of society, and whose positions among them will entitle them their labors to confidence and support—and in their hands they certainly elemented by confidence of 1868.

METHODS OF CHANGE.

Of the two methods prescribed for changing the Constitution, that by legislative enactment is expensive, uncertain and dangerous; the several amendments recently submitted to and ratified by the people encountered the greatest difficulties in their passage, and even after the will of the people was declared in their favor by over 40,000 majority, serious apprehensions were entertained as to whether they were properly adopted; again, legislators when possessed of qualifications for such duties, and cannot bring that attention to each provision presented for consideration, without meeting such criticisms as may imperit their labors.

The Convention method is speedy and economical, the body is composed only of the same number of members as comprise the House of Representatives, and their Dr Duncan Sinclair and

The restrictions imposed by the Legislature, fully and amply secure the Homestead, arechanics Lieu, Kights of married women, and Personal Liberty, and should quiet the tears of the most timid, for they are recognized as of binding efficacy and are chiefly enjoyed by the friends of Constitutional Reform. Indeed they were incorporated in the bill mainly to remove partizan clamor, and anticipate scruppions agitation. They are not the property of a nere party, but had their origin in the necessities of civilized society and were foundamong the statutes of various States previous to the war.

QUALIFICATIONS OF DELEGATES. mere caviller; the keen optics of some per-

sons defy all law. The mere fact that the honor of the best men in the State is pledged to their preservation, should satisfy every reasonable voter. This Convention is easiled in pursuance of law, and each delegate before "he shall be permitted to sit, to be entitled to a seat in said Convention or act as a delegate thereto," shall swear to observe these "restrictions" (see acts [8,1-5,1]) Should a part comply and part refuse to take this oath, only those who obey the law are members of the body, nor are we without precedents; similar oath was required of the members of the "restricted Convention" or 18.5, the same question was raised, and siter debate all the members cock the oath and observed the restrictions, and that in a time of high part." exc tement. In that discussion the distinguished Judge Gaston used the following language: "The Same Legislature had indeed no authority to impose an oath upon the memiers of the Convention, but the people had ratified the act of the Legislature by choosing delegates under it. If we transcend the limits or refuse obdedictes to the conditions therein prescribed we are not the Convention called by the people, but a self constituted body; "these views we re concurred in by Macon, Edwards, Morehead, and others. We will dismiss the swil of however, by calling altention to the able work of Judge Judgeson on "constitution that conventions," where, by ergument a difference of the connective of the convention of the the swilling altention to this matter, he demonstrated that "overtions are bound to obey the restrictions imposed." SERVATIVE CENT'L EX. COM, RALEIGH, June 1st. '75. To the People of North Carolina: The General Assembly at its reeent session called a Convention of the people to meet at Raleigh on the

6th day of September next, for the purpose of suggesting such alteraions in our organie mw as may be deemed wise and expedient. NECESSITY FOR CHANGE.

The necessity for changing many the provisions of the existing Constitution is generally admitted; and is too apparent to require extended arnument. It is true that some of our prominent men at one time opposed he call for a convention; but their ction was based on prudential conideration, and not on an indisposi-ion to have the Constitution horoughly revised. They feared that ur purpose in seeking to reform our fundamental Law, might be misconstrued by the violent and illinformed men then controlling Congress, and the prosperity of our peo-ple checked, and the peace of the State jeepardized by some barsh and Mobilier reveiations," "Samborn tontracts" and other trauds and defalcations,
and their vindictive and refentless policy,
whereby they sought to degrade the supetier race by this intiguitous "Civil Rights
Bill," overcome their party prejudice and
give us their cordial support. To them we
extend an invitation to remain and continue the work so auspiciously begun. To
the sed who oppose us under the oclusion of
their leaders, who assured them this bill
would never pass Congress and if it did
would never pass Congress and if it did
would never pass Congress and if it did
would be vetoed by the Presidont, though
it now has his signature; and who have
witnessed the earnestness with which the
dangerous "Force Bill" was urged upon
Congress, we say no longer remain where
there is neither safety nor honor to a North
Carolinian. The bairle for civil liberty is
not yet over. "Civil Rights" is still a part
of the secret carpet bag programme for the
State; though - riven from the halls of
Congress, it will be renewed in the Southern States. We therefore unvite their co
operation. The Convention owes its final
success to the support of some of their
ablest representatives in the General Assembly and they are doubtless aware that
the wise provisions introduced into the
Convection of issa, by their ablest native
representatives were scouled and defeated
by that vame element that has brought
rafin upon their party and confusion to our
State.

NECESSITY OF GROANIZATION. unconstitutional action on the part of the United States authorities. That fear no longer exists. We now have every assurance that the Constitution of the United States will observed by the officers of the Government, and feel a satisfaction in announcing to you that the time has at last arrived when the officials at Washington City concede that the people of North Carolina have the same right to manage their local oncerns which the citizens of other tates enjoy. We can proceed without apprehension to perfect our Constitution and remodel it in the interests of our people.

ITARY DAW. This Constitution, the creature of Milary dictation, was born in the throes of a misinly Sciolists and adventurers who had lived among us without preferment, or possessed of quantications entifling them to it; others were our recent siaves, who had known no law save the will of their masters, and others still were carpet-baggers, both black and white-nileu in faciling and Radical in Education—who sought postions here that were depiced them where known—to despoil and humiliate us. And when their work was submitted to the people at the poils, thousands of our best citizens were deprived of the right of voting upon it, and over cighty thousand ignorant uccross were given the ballottosscure its adoption. It is no exaggeration to say that not one person in ten who voted for it could read the ins rument, and not one in inty had read it or was even moderately featilities with its provisions, and many

We believe, however, the promise is but a delusion and snare, for shouli they ascerts in they have a majority in the body, it will be sen easy matter for them to evide their promise by the refusal of a few to concur; as they do not acknowledge the prestrictions" as blinding, they will resort to the most revolutionary measures to sustain their desperate fertances, and in the end will fail to submit their That the Constitution contains some good provisions no one denies; it would be singular if it d d now tut its abominable cheracteristics were so manifest that not a single Conservative member of the Convention that passed it could be induced to affix his signature to it, as a fit instrument to be submitted to the people. PLEASE EXAMINE THE PRACTICAL RESULT The merchantable bala of cotton being an average of four hundred and seventy pounds, for convenience we submit a test on thirteen hundred pounds cottor in seed, as being a near approximate to the merchantable bale in lint.

TEST OF NEEDLE GIN. Thirteen hundred pounds of seed cotton yielding in proportion to the above test, produces four hundred and sixty-eight pounds of lint and calculating the price per pounds of function cents, (as an average pound at fourteen cents, (as an average rate obtained for the seasons croop, the net value of the production would be \$55.52. The time consumed in ginning would be seventy-eight minutes to the bale.

TEST OF TAYLOR SAW GIN. Thirteen hundred pounds of seed cotto Thirteen hundred pounds of seed cotton yielding in above proportion, would produce tour hundred and thirty-two pounds lint (or some thirty-six, lbs. lint per baie less than the Needle Gin), which at fourteen cents would not \$0.48-or a loss of \$5.64 per baie as compared with the Needle Gin. This would require the ginning of only fits-three baies to PAY FOR YJUE GIN, as fty-three bales to PAY FOR YJUR GIN, as he amount saved would buy you a Forty Circle Gin.

NEW YORK July 30. - A letter from St. Thomas says that the Spanish au-St. Thomas says that the Spanish authorities at St. John, Porto Rico, took off a passenger named Lecis Venegas from the British steamship Eider by force despite the protest of the Captain, and it was reported that Venegas had been shot. It is said he had held a position in the Spanish army and had absconded with public funds. He was en route from public funds. He was en route from t. Thomas for San Domingo on the Eider, which put into Porto Rico when the Captain of the Eider refused to give up Venegas. A Spanish gun boat took a position on front of her ready for action. The Captain then said he was not prepared to resist force and had to surrender his passenger under protest. It was also said Venegas was only a political of

NEW YORK, July 30 .- An Havana letter dated 24th says, a Neuvitas let-ter of June 25th says, "about 10 days ago large Spanish convoy left Puerto Principe for Gualmaro consisting 45 ox-carts and 93 pack mules loaded with ammunition and provisions and hundred and fifty thousand dollars in gold for the army at Cascorra and Gualmaro. The convoy was guarded by 500 soldiers under the command of Col. Huelches. It was suddenly attacked by rebels, eight hundred strong under command of Generals Garcia and Rooves and the whole force of guards and escort thrown into confusion and the convoy cap'ur-ed by the rebels. The loss of the Spanish troops was about 150 killed. Among the number was Col. Huelehes who was in command. The rebel loss could no' be ascertained.

The Duncan-Sherman Failure.

NEW YORK, July 30 .- Mr. Duncan stated yesterday that at least 5-6ths of the letters of credit held against his firm were secured. It is asserted that Theo, Moss had \$60,000 with the firm, Henderson & Colville had \$30,-600, and Wm. Weatherby had a very large sum. J. C. Toole holds their paper which he bought within a fortght to the extent of \$30,000; H. J. Montague deposited with him his earnings here, and John Brougham had almost his entire fortune in the house. Jno. T. Raymond and W. S. Florence both had letters of credit from the firm, as well as many of their professional associates abroad.

The O'Connell Centennial Week. LONDON, July 30.—It is reported that arrangements have been made to place twelve steamers in the City of Dublin steam ship company to convey passengers from Liverpool to Dublin during the O'Connell Centennial week. It is expected that 10,000 persons will go to Dublin from the various Home Rule centres in Great Britain. The Fenian Assembly Association announces a great mourning demonstration in Dublin concurrently with the O'Connell procession on August sixth.

Assistant Secretary of the Treasury. WASHINGTON, July 30.-The order of the President directing Assistant Secretary Burnham to act asSecretary during the temporary absence of the | line. Freasurer should not be understood as indicating the slightest displeas ure on the part of the President or the Secretary towards Assistant Secretary Conant. That officer, they say, enjoys to the fullest extent the confidence of both.

Damage from Freshets.

CINCINNATI, July 30.—Report of damage to crops from late rains continue from Southern Ohio and South ern Indiana. All report swollen streams, submerged corn and sprouting wheat.

Miscellaneous Items.

It is said at Constantinople that the Grand Vizier has been dismissed from office. The steamer "My Choice" ran

down a skiff off Huntingdon, W. Va., drowning four men unknown. A St. Louis dispatch says that a reliable source contradicts the reputed assassination of Chief Ross. He is at

home and well. Campbell & Cossels, bankers and brokers at Toronto, have suspended until they can hear the fate of Doncan, Sherman & Co.'s foreign bills.

The Manchester Home Rulers are dissatisfied with the sectarian character which is given to the O'Connell Centenary Festival in Dublin. Surprise is expressed that Dr. Isaac Brette, the Home Ruler of Parliament for Limerick, is not invited.

Dr. Donnelly, Dentist, at Cynthiana Ohio, yesterday approached Dr Pre-kover, another Dentist, saying that Prekover had called him a har, and shooting him dead. Donnelly then surrendered himself, but on his way o jail was shot dead by Ridgely, a brother-in-law of Prekover. Ridgely is in custody.

A cyclone passed through Harrisburg, Fountain county, Indiana, last Sunday night, tearing houses to pieces uprooting trees and sweeping things generally before it. Five women and children were killed. Two hundred and fifty feet of the track of White Water Valley Railroad was washed out and a bridge at Cambridge City, carried away during the storm. The damages are being repaired.

MIDNIGHT DISPATCHES.

The English Parliament-Plimsoll's Shipping Bill.

LONDON, July 30 .- In the House of Commons this afternoon Mr. Bourke, under Foreign Secretary, in reply to an inquiry, said that England had not been invited to any future confer the usage of war. Her views on that subject were unchanged. Disraeli, in response to a ques-tion of Mr. Bates, Conservative member for Plymouth, said the govern-ment would afford every facility for the appointment of a committee to investigate Plimsoll's charges affecting Bates, if the latter so desired.

The debate on the shipping bill was begun. Mr. Plimsoll advocated the passage of Sir Carles Adderly's British channel tunnel bill pass-

od the House of Lords.
Sir Charles Adderly's shipping bill passed its second reading this evening in the Commons.

Miscellaneous Items. Wm. Henderson, a lumber merchant of Montreal, failed yesterday

The Assistant Secretary of the Treasury-Postal Order Matters-The Yellow Fever at Fort Barraneas and Other Matters.

WASHINGTON, July 30.-President Grant has ordered that during the absence or sickness at any time of the Honorable Benjamin H. Bristow, Secretary of the Trersury, the Honorable Curtis F. Burnam, while Assistant Secretary, is hereby authorized to perform the duties of Secre-

tary until otherwise ordered. The Postal money order system be tween the United States and Cuba goes into effect on Monday next. The Secretary of the Treasury has ordered the retirement of over a million legal tender.

Dispatches received at the war department from Brevet Major Gen'l Brannan, commanding at Fort Barraneas, Florida, report 2 new cases of yellow fever there yesterday and two deaths, a laundress, and Mrs. In-galls, the wife of Lieut. Ingalls.

No new cases are reported from Fort Pickens. Dr. Sternburg, post Surgeon at Barraneas, who is down with the fever, is doing well. Robeson has gone to Rye Beach for a month.

The Secretary of the Treasury today decided to make no change in the engraving or printing of the new series of National Bank notes with the exception that the notes are to be reprinted on destructive paper and marked "series of 1875." and will bear the signature of the present Treasurer of the United States. The law requires that these notes shall have no less than three plate printings, one or two of which shall be performed by responsible and experienced Bank note companies or bank note engravers. No company or establishment executing more than one printing upon the same note, and the final printing and finishing to be done in the Treasury Department.

The Postmaster General decide that the office of issue is the office of publication, and not where the paper may be printed. All such publications must be sent to the place of issue before they can pass through the mails at publishing rates.

-A New Line of Steamships. NEW YORK, July 30.-The Post says in regard to the report that the Atlantic and Pacific Telegraphic Co. is to be merged with the Union or practically controlled by theflatter, there is no offical confirmation. It seems, however, to be conceded that there is a movement on foot to accomplish that end, but the report which has been current that it had been accomplished was premature.

The . Committee of the Catholic Total Abstinence Union of America waited upon the Papal Obligate M'g'r Rousette this A. M. and |presented him with an address containing protestations of devotion and love to be conveyed to the Pope. The address was adopted at a meeting of the Convention held in Chicago on the 24th of October 1874. A Latin address to the Pope from the clergy of the Diocese will be presented to Papal Obligate this evening and the Papal Legation will sail for Europe

to-morrow.

NASHVILLE, July 30.—Specials to the Nashville papers from Greenville, Tenn., this evening, report that Ex-President Johnson was stricken with Paralysis on Wednesday evening at the residence of his daughter in Car ter county. He is lying in a very critical condition and his recovery is extremely doubtful.

A despatch from New Orleans states that a riot is apprehended at East Feliciana, where the negroes have assumed the offensive, and are collecting and arming through the parish for the supposed purpose of capturing the town of Clariou. Great excitement prevails throughout the parish. A number of whites have rmed and congregated to patrol the town. A bad feeling has existed be tween the races in that parish for ome months.
